

KeHE DIGITAL SUPPLIER ORDERING PROGRAM

Overview

Overview

KeHE has partnered with Genius Central as their preferred EDI provider. This partnership will assist suppliers in complying with KeHE's EDI requirements. KeHE believes that by digitally-enabling the supply chain it will be possible to deliver better retailer fill rates while also increasing order accuracy, improving delivery times and reducing spoils. By creating a digital backbone for KeHE's inbound supply-chain data, the critical information needed about orders, pricing, quantities, shipment timing and invoices can be provided via a digital platform easily accessible to all KeHE suppliers.

KeHe is setup to exchange three (3) core EDI documents with all of its suppliers:

850

Purchase Order

855

Order Acknowledgment

810

Electronic Invoice

Genius Central will work with suppliers and offer a solution that fits with each company's technical capabilities. Suppliers without in-house EDI capability will have access to Genius Central's user-friendly web portal, GCHQ. Suppliers with more advanced technical capabilities will have the opportunity to meet the requirements via a connection through SFTP, AS2 or working with a third-party EDI provider.

Program Benefits

- ✓ Increase order and data accuracy
- ✓ Improved communication on order and fulfillment details
- ✓ Boost visibility of order transactions

Cost

Cost for the EDI service includes a setup fee plus a flat monthly service fee. This monthly service fee is based on annual order volume and covers the cost associated with connecting your company to KeHE through Genius Central to receive orders via EDI. For more details, please contact our sales team.

How to get started

1. Contact the Genius Central Sales Team 800.360.2231
2. Begin EDI Setup
3. Complete Testing

You are now ready to begin receiving KeHE Purchase Orders through EDI.
